The MULTIPEARL 200-2 is a single phase Multi-process welder. It is capable of MIG/MAG, Gas & No Gas, MMA and TIG welding. It has an advanced user interface with the option of fully synergic or manual mode.

**3 in 1**

This machine combines 3 welding processes from its advanced Inverter technology.

- **MIG-MAG**
  - The MULTIPEARL 200-2 is suitable for 1Kg and 5Kg wire reel thanks to its 2 rollers motor.
  - The MIG-MAG process can be used in manual or Synergic mode.

- **TIG**
  - The device is capable of TIG welding: TIG Lift DC.
  - Post Gas and Downslope are adjustable directly on the torch thanks to the EURO connector.

- **MMA**
  - Capable of welding any type of electrodes except Aluminium and Cellulosic up to Ø5mm, this machine is perfect for stick welding.
  - Hot Start and Arc Force are adjustable from 0 to 100%.

**MIG-MAG SYNERGY**

- Wire speed and voltage are automatically adjusted by the machine by selecting:
  - Wire type and diameter;
  - Thickness of the metal to weld;
  - Gas used;
  - Welding position.
- It is possible to manually adjust the wire speed and arc length if desired.

**Synergies offered:**

**FEATURES**

- LCD screen designed to see and easily adjust welding settings.
- Power Factor Correction enables a saving of 30% of energy by using the electricity network more efficiently.
- Flexible Voltage enables the machine to run on a power supply from 85V to 265V
- Combining these two technologies makes the device suitable for using an extension lead up to 100m.
- Tested in the factory against overvoltage up to 400V. Also the device is designed to be able to be used on a generator.

**Options**

- TIG torch SR17 DB - air - 4m (046108)
- trolley 4 m² WELD 810 (037489)
- trolley 4 m² WELD 610 (040281)
- welding no gaz kit for (041240)
