

# MULTIWELD 320T

MIG/MAG and MMA welding machine  
**Power, simplicity and flexibility.**

[www.gys.fr](http://www.gys.fr)

## Multi-process

- **MIG/MAG with gas**  
(solid wire Ø 0.6 to 1.2 mm)
- **MIG/MAG without gas**  
(cored wire Ø 0,9 to 1,2 mm)
- **MMA** with rutile and basic electrodes  
(up to Ø 6 mm).

## Intuitive settings

- Welding voltage
- Wire feed rate or welding intensity
- Arc dynamics
- Choice of trigger mode (2T or 4T)

## Preheating of pure CO2 gas

Pre-installed socket (36 V DC- 4.2 A)

## Integrated reel dispenser

Compatible wire coils: Ø 200 / 300 mm

## Large integrated storage

## Support for gas cylinder

up to 4 m<sup>3</sup>.

- Welding current adjustable from **40 A to 320 A**
- Duty cycle of **240 A at 60 %** (40°C)
- **Three-phase power supply** 400 V - 16 A
- Digital interface with real time display of welding voltage and current.
