Essential
Heavy goods vehicle 2022

Car body
Charge
Welding
Steel dent remover • GYSPOT EXPERT 400

- Ideal for dent removal and straightening of thin steel components (bonnet, doors...)
- Ref. 058859

Steel & aluminium dent remover • GYSPOT ARCPULL 350

- The GYSPOT ARCPULL 350 is a drawn arc station specially developed for thin sheet metal in automotive bodywork.
- Ref. 064652

Dent removal trolley

UNIVERSAL 800

Option: GYSPOT EXPERT 400
GYSPOT ARCPULL 350

- The Proliner is the complete dent removal kit, essential for straightening all small, medium and large dents (sills, wheel arches, wings...)
- Ref. 053630

Dent removal trolley

SPEEDLINER EXPERT 400 + ARCPULL 200

- Speedliner is the complete dent removal kit, essential for straightening all small, medium and large dents (sills, wheel arches, wings...)
- Ref. 063191

Spot welding machine

GYSPOT PTI GENIUS

- Liquid-cooled INVERTER spot welder
- Welding of high-strength steels (UHLE / Boron steels)
- Clamping force of 550kN
- Welding up to 14,500 A
- Automatic adjustment of welding parameters in AUTO mode
- Traceability function for spot welding
- Equipped with a G-clamp
- Adjustable motorised over-hanging arm
- Ref. 054411

Induction heating system

POWERDUCTION 110 LG

- For ferrous metal
- Essential for unlocking the steering tie rods (geometry).
- Removal of seized windscreen wipers, spare wheel baskets.
- Bolts and steering knuckles can be removed without damaging the surrounding components.
- Removing seized bearings in the hub.
- Dismantling of car or truck exhaust lines.
- Ref. 057814 -

Option: Cooling liquid
Ref. 052246

Induction heating system

POWERDUCTION 160 LG

- For ferrous metal
- Essential for unlocking the steering tie rods (geometry).
- Removal of seized windscreen wipers, spare wheel baskets.
- Bolts and steering knuckles can be removed without damaging the surrounding components.
- Removing seized bearings in the hub.
- Dismantling of car or truck exhaust lines.
- Ref. 057814 -

Option: Cooling liquid
Ref. 052246

Plasma cutting

NEOCUT 105

- The NEOCUT 105 is a plasma cutter for professionals who want to quickly cut parts up to 50 mm thick on a multitude of materials. Its high duty cycle, high cutting performance and ergonomic torch make the NEOCUT 105 a formidable tool for cutting and gouging in an industrial environment.
- Ref. 063112

Plasma cutting

CUTTER 45 CT

- Cutting up to 20 mm for steel and 10mm for Alu
- Power from 10 to 45 A
- FV power supply (Flexible Voltage 85-265 V)
- Technology PFC
- Suitable for cutting table (CNC)
- Wire mesh cutting mode
- IP 23 (exterior/worksite)
- Ref. 063260

Riveting Machine

ER20

- Star crimping nuts
- POP rivets
- Rivets Ø 4 / 4.8 / 5 / 6 / 6.4 mm
- max 20,000 N (6 bar)
- Excellent grip thanks to its ergonomic handle
- Maintenance free
- Supplied with accessories:
  - Ø 2 - 20 V / 2 Ah Li-ion battery
  - Nose pieces assortment
- Ref. 064461

Plasma cutting

CUTTER 45 CT

- Ref. 051331

Option: Cooling liquid
Ref. 052246

Demonstration on request
Charger • GYSFLASH 103.24 CNT FV
(Battery Support Unit)

- Charging: for 6/12/24 V Lead or Lithium batteries from 20 to 1200 Ah
- Diagnostic: supports up to 100 A vehicle batteries in diagnostic phases, in maintenance workshops.
- Showroom: provides continuous power when using the electrical accessories of a demonstration vehicle. It also manages the optimal charging of the battery.
- Tester: Allows you to check the battery voltage, evaluate the starting system (starter + battery) and the condition of the vehicle's alternator.

Ref. 025684

Charge: 20 > 1200 Ah
Icharge: 100 A
V: 6/12/24 V

Charger • GYSFLASH 15.24 XTREM

- High efficiency, duty cycle from 15 A at 100% (40°C)
- 2 charging modes:
  - Pb: for charging lead batteries 12 V from 10 Ah to 240 Ah and 24 V from 10 Ah to 240 Ah
  - Military connection (high currents)
  - Shockproof case.
  - IP65 (water, dust...)
- Recover even deeply discharged batteries (SOS Recovery)

Ref. 025113

Charge: 10 > 240 Ah
Icharge: 5/10/15 A
V: 12/24 V

Booster • STARTPACK PRO 12.24 XL

Ultra-powerful, the STARTPACK PRO 12.24 XL is a very robust booster specially designed for intensive on-site vehicle starts. Equipped with an advanced protection system, it is the most advanced stand-alone starter on the market.

Ref. 020731

Charge: 40 > 220 Ah
Peak battery: 6200 A (12 V)
3100 A (24V)
V: 12/24 V

Inverter • PSW 1500 W - 24

This inverter has the advantage of being small, lightweight, stable and highly efficient in conversion. This product benefits from optimal conversion efficiency and full protection.

Ref. 024229

Input DC: 24 V
2400 W
4800 W

Professional battery tester with ultra-precise measurement and built-in printer:
- 12 V battery
- Starter 12 and 24 V
- Alternator 12 and 24 V
- Full test report
- Multilingual

Ref. 024830

Charger • BATIUM 25.24 X

- 100% unattended load - all types of lead car batteries (liquid or gel) from 35 to 350Ah (ideal for light vehicles up to heavy goods vehicles).
- and liquid electrolyte lead traction batteries from 35 to 180Ah (ideal for cleaning machines, fork truck, pallet truck...)
- Batium 25-24, has an SOS Recovery function to regenerate sulphated starter batteries.
- VOLTMETER MODE

Ref. 024480

Charge: 7 > 240 AH
Icharge: 180 A
V: 12/24 V

Charger/ Starter • DIAG STARTIUM 60.24

Compact automatic charger/ starter for 6-12-24V battery.

- Load capacity from 20 to 900Ah with a power of 60A max.
- Starting power 300A (12V).
- DIAG + function for diagnostic phases at 12V (60A).
- Alternator test function available.

Ref. 026230

Charge: 7 > 240 Ah
Icharge: 180 A
V: 12/24 V

Start Leads • PRO 700 A

- Starter cable 700A
- 2 x 5m - diam 35 mm².
- Professional model.
- Insulated clamps with copper cable. Ideal for cars and trucks of all sizes.

Ref. 025541

Charge: 700 A
V: 12 V

Start Leads • PRO 1000 A

- Starter cable 1000A
- 2 x 5m - diam 50 mm².
- Professional model.
- Insulated clamps with copper cable equipped with 2 anti-arc protections to avoid any risk of overvoltage.
- Ideal for cars and trucks of all sizes.

Ref. 025619

Battery Tester • PBT 700

Professional battery tester with ultra-precise measurement and built-in printer:
- 12 V battery
- Starter 12 and 24 V
- Alternator 12 and 24 V
- Full test report
- Multilingual

Ref. 024229

Charger • BATIUM 25.24 X

- High efficiency, duty cycle from 15 A at 100% (40°C)

Ref. 024229
Welding station • TITANIUM 400 AC/DC HF (INVERTER)

WELDING STATION TIG AC/DC
- 2 processes: TIG AC/DC and MMA DC / Pulse (up to Ø 6 mm), TIG DC off / Pulse
- SYNERGIC mode
Ref. 062317

Delivered with:
- TIG torch w/1 torch
- Ground cable 600 A
- Cooling unit WCU 36W C
- Trolley 10 m3

SEVERAL MODES
- Pulsed mode in TIG welding. Limits the melting temperature and allows the welding of steel sheet from 0.3 mm upwards
- Pulse mode in MMA welding. Ideal for vertical upright welds and various applications such as tubing and pipelines.
- Intuitive interface with voltage/current display
- Calibration mode for welding accessories, to adjust the displayed voltage measurement and refine the energy calculation.
- Power mode. Connect mode 5...

Tools
Impact spanner trolley • TROLLEY IW1

The impact wrench trolley is an ergonomic tool to make the use of M6V impact wrenches easier. It allows an operator to support the mass, torque and some of the vibration of the impact wrench when used on a M6V.

Ref. 063136

- Articulated arm
- Freedom of movement
- Adjustable effort
- Swivel & 40° tilt
- Weight removal, vibrations and torque
- Compatible with a wide range of impact spanners max 20 kg
French manufacture since 1964
